

Weld and Fabrication Supervisor

Company Overview

TS Manufacturing, a local family-owned manufacturer of Automated Machinery for the Sawmill & Material Handling sector, based in the scenic City of Kawartha Lakes. As an industry leading manufacturer, TS Manufacturing has continually improved its facilities and infrastructure leading to the completion of a multi-million dollar facility and equipment expansion. With modern technology, and a strong global customer base we require people who are willing to take advantage of the opportunities to improve our processes and customer experiences throughout the organization including Welder and Fabrication Supervisor. **We are a World Leader in innovation for the lumber processing industry.** We have been in business for 50 years and we are proud of our experienced multi-generational team. TS Manufacturing offers a rural based lifestyle, while working in a global business offering competitive pay and benefits.

Job Description

The successful candidate will be responsible for organizing, planning and delegating tasks for our welding and fabrication department with the goal of building custom designed industrial equipment to required specifications. You will interact and collaborate with all departments, including our in house engineering, machine shop and assembly departments in order to design and build our custom machinery.

Key Duties Include

- Plan, schedule, assign and prioritize tasks/assignments to achieve production goals.
- Monitor assigned work activities to ensure shipping dates are met.
- Ensure production processes are followed
- Report resource shortages to purchasing
- Promote safe work practices
- Experience with welding symbols, diagrams and reading blueprints.
- Able to effectively communicate with all levels of the organization

Desired Skills & Experience

- Experience in modern welding and fabricating technics and processes
- Minimum 5 years Supervisory and Management experience in an industrial metal fabricating environment
- Familiar with SMAW and GMAW welding processes
- Certified CWB Welding Supervisor is an asset
- Experienced in rigging and operating an overhead crane
- Knowledge of sawmill equipment an asset
- Proficient with Microsoft office applications, including Outlook, Word and Excel.
- Excellent interpersonal and communication skills
- Ability to work overtime / longer hours when required.
- Excellent Organizational skills

What we Offer

Working with TS Manufacturing is a unique chance to take part in a growing company with projects all over the world. Our family oriented company ensures that you are not just a number, but a part of that family, where you are a part of an industry leading team of people all after a common goal. To be the best.

- Well lit and newly expanded manufacturing shop with in-house Engineering Department, and large Assembly shop recently upgraded to handle larger industrial equipment
- Modern CNC based plasma and laser cutting, press brake, saw, lathe and milling capability on site to support Assembly processes
- Health and dental benefits
- Company pension plan
- Overtime after 40 hours
- Excellent opportunities for new skills and experience with our industrial machinery as we design, manufacture, install, maintain and upgrade our own equipment throughout its life cycle to customer requirements
